

# KILL LIST

## Hard Surface Sanitization: 30 sec. contact time

Escherichia coli  
Staphylococcus aureus

## Carpet Sanitization: 10 min. contact time

Enterobacter aerogenes ATCC  
Staphylococcus aureus ATCC

## Soft Surface Sanitization: 5 min. contact time

Enterobacter aerogenes ATCC  
Staphylococcus aureus ATCC

## Disinfection Bacteria: 10 min. contact time

Pseudomonas Aeruginosa  
Acinetobacter baumannii  
Staphylococcus aureus MRSA  
Staphylococcus aureus ATCC  
Listeria monocytogenes  
Legionella pneumophila  
Salmonella enterica  
Klebsiella pneumoniae (NDM-1)  
Escherichia coli

## EBOLA

Aseptic Plus+ meets the CDC criteria for use against the Ebola virus.

## Mildewstat (fungi): 10 min. contact time

Aspergillus niger – 1 wk. protection hard surfaces  
4 wks. protection soft surfaces  
Stachybotrys chartarum  
Aspergillus fumigatus  
Alternaria alternata  
Penicillium sp  
T. mentagrophytes (Athlete's foot)\*

## Disinfection Viruses: 5 min. contact time

Respiratory syncytial virus (RSV)  
Human immunodeficiency virus (HIV Type 1)  
Rotavirus, Strain WA  
Hepatitis A virus  
Hepatitis B virus  
Hepatitis C virus  
Influenza B virus  
Murine Norovirus (MNV-1)  
Swine influenza (H1N1)  
Adenovirus\* (10 min. contact time)  
Hantavirus\*

✓NON-CORROSIVE  
✓NO RINSE REQUIRED
